Re: Husham Golf Design Inc.

To Whom It May Concern:

Please accept the following letter of reference towards Darrell & Warren Husham and their firm Husham Golf Design Inc.

Husham Golf Design recently designed and managed the construction of my golf course in Quebec, Canada. The site was tremendously challenging and I was very impressed with the creative and professional approach in which they handled all the various design, construction and site demands that arose.

Throughout the entire process they were a pleasure to work with and upon completion, the course exceeded my expectations from all perspectives. They have a deserved reputation as one of the premier golf course design firms in Canada and came highly recommended. I would not hesitate to give them my highest recommendation.

Sincerely,

Paul Martin
