To whom it may concern,

Please accept this letter as a reference towards the work of Darrell and Warren Husham of Husham Golf Design.

Darrell and Warren recently undertook the design and construction supervision of our new 18 hole championship golf facility, **La Tempête**, in the Quebec City region. We are extremely satisfied with the final product that they have created; it is a very impressive and challenging course, as can be attested by our hosting of the **World Skins Game** in 2009.

Although our golf course was designed to include hosting professional tournaments, it is its powerful visual appeal, diversity and continued enjoyment for membership play of all abilities that has really made our facility a great success.

I was very impressed with the hands on approach, imagination and strong attention to detail that the Hushams brought to our project. Their reputation as being one of the premier golf design firms in the country is well deserved, and I highly recommend them for any future golf design work.

Sincerely,

**André Raymond**  
Vice President / General Manager  
**La Tempête**
